- Three independent evaluators will evaluate players during the B Phase I process. The process will split into two Parts. At the conclusion of the first three sessions (Part I), the independent evaluators will select the top 15 skaters. These 15 skaters plus the 5 skaters cut from the A pool will be placed in to the B1 Phase II.
- At the conclusion of the first three sessions (Phase I), the independent evaluators will identify the C team. The numbers for the C level will be posted by 7am the next day on the website and the CHS arena.
- The independent evaluators will also identify the next 30 skaters who will return the following day for a one hour scrimmage. The 30 skaters will be randomly assigned to teams and skate in a 5 on 5 format. The independent evaluators will determine in this final hour whether there is enough talent at each level to support a second competitive B1 team at that level. These players will also be posted by 7am the next day.
- If the evaluators determine there should be a second B1 team at that level they will identify the top 10 skater from the final hour. These ten skaters will be then be placed in the B1 phase II. The remaining skaters will be placed in the B2 phase II.
- No Goalies will be advanced to B1 phase 2 until after the final hour scrimmage on Tuesday. Goalies to be advanced to B1 phase 2 will be posted by 7 AM Wednesday Sept 30th. The number of goalies to advance to B1 phase 2 will be determined by the number of goalies selected for the A phase 2, and by the number of B1 teams determined by the evaluators.
